SUMMARY

Web developer with professional experience in PHP-based applications and academic exposure to modern JavaScript frameworks. Actively building skills toward Full-Stack development using MERN and MERN through projects and university work.

PROFESSIONAL EXPERIENCE

- CoreDigitals**, *Php Developer | Frontend Developer*
• Developed dynamic websites, CRMs, and brand landing pages using **PHP, phpMyAdmin, AJAX, jQuery, HTML, and CSS**.
• Implemented form handling, database operations, and asynchronous data flow for real-world client projects.
• Deployed and managed projects on **InfinityFree**, ensuring hosting stability and performance.

05/2025 – 11/2025 | karachi
- Ayan Tech**, *Website Developer | Frontend Developer*
• Built responsive websites using **HTML, CSS, JavaScript, React.js, Bootstrap, Material UI**, and **media queries**, converting designs into functional web pages.
• Improved layout consistency, responsiveness, and cross-device compatibility across client websites.

08/2023 – 07/2024 | karachi

PROJECTS

- SquadSecurity (In Progress)**
A security services platform for managing company services and client engagement.
Tech: Next.js, ShadCN UI, Vercel
• Built a modern, scalable frontend using Next.js and component-based architecture with ShadCN and responsive layouts. Deployed preview builds on Vercel with CI-ready structure.

12/2025 – Present
- Wearify (FYP), In Progress**
A virtual try-on system using MERN concepts and Python-based processing.
Tech: MERN, Python
• Focused on virtual clothing visualization and backend logic. Research-driven final year project aligned with MERN stack direction

10/2025 – Present
- Hire Hunt**
A recruitment platform enabling HRs to post jobs and applicants to browse and apply. 
Tech  : PHP, jQuery, HTML, CSS
• Developed job posting, listing, and application workflows. Implemented dynamic frontend behavior using jQuery and AJAX. Designed database-backed features for user and job management.
- Bookify**
A book brand website showcasing services, portfolio, and inquiry forms. 
Tech  : PHP, MySQL, jQuery, HTML, CSS
• Created interactive forms connected to MySQL database. Built service and portfolio sections with clean, user-friendly design. Focused on branding and content presentation.
- SS Security Services**
A corporate website for a security services provider. 
Tech  : HTML, CSS, JavaScript, jQuery
• Developed a professional company website highlighting services and client outreach. Implemented contact and inquiry features for lead generation.
- University MERN Projects, Hungrify | Smart Shuttle Management System**
Tech: MongoDB, Express.js, React.js, Node.js
• Built full-stack university projects following MERN architecture. Implemented authentication, CRUD operations, APIs. Projects maintained on GitHub to demonstrate MERN/MERN proficiency.

EDUCATION

- bachelors of computer science, IQRA UNIVERSITY (Gulshan Campus)**
• Current GPA : 3.16
• **Coursework** : Computer Fundamentals, Object-Oriented Programming, Digital Logic Design

2022 – Present | karachi

TECHNOLOGIES

- Skills:**
• PHP , JavaScript , Next.js , React.js , jQuery , Python
- Technologies & Tools:**
• MongoDB Atlas , MySQL , MariaDB , Firebase Hosting , Vercel , Material UI , ShadCN UI , GitHub , Cursor , VS Code , phpMyAdmin , InfinityFree
